Advisory Committees Approve VISION 2050

Next step is adoption by the full Commission at their meeting on July 28.

At their June 29 meeting, the Commission's Advisory Committees on Regional Land Use Planning and Regional Transportation System Planning unanimously approved VISION 2050, recommending that the Southeastern Wisconsin Regional Planning Commission adopt VISION 2050 as the Region's long-range land use and transportation system plan.

The Committees' approval followed their approval of [some proposed changes to the Draft Plan](#), based on consideration of [public input on the Draft Plan](#), as well as input from Committee members, the Environmental Justice Task Force, Jurisdictional Highway Planning Committees in each county, and VISION 2050 Task Forces on key areas of interest.

The Commission staff would like to thank everyone that has taken time to be involved and provide input during the VISION 2050 process. Stay tuned for a VISION 2050 launch event being planned for the fall!
